Summary —

Motivated and enthusiastic computer science student with knowledge of Python, Java, Flask, MySQL, and development tools like Git, VS Code, Jupyter Notebook, and Postman. Experienced in building academic projects such as a Student Management System and an AI-based Study Assistant. Seeking an opportunity to apply my programming and problem-solving skills to develop innovative software solutions while continuously learning and contributing to organizational growth.

Skills

- **Programming:** Python, Java
- **Frameworks & Libraries:** Langhian (project-based), Flask
- **Databases:** MySQL
- **Developer Tools:** Git, Jupyter Notebook, VS Code, Postman

Education

Aditya Institute Of Technology and Management	Pursuing
B.Tech in Computer Science and Engineering	
Narayana Junior College, Srikakulam	March 2024
Intermediate (MPC)	Percentage: 96
S.R.S.M.Z.P.H School, Srikakulam	April 2022
Secondary School of Certificate (SSC)	Percentage: 92

Projects

Student Management System	Python,Flask,HTML,CSS,SQLite
Technologies: Python, Flask, HTML, CSS, SQLite 2022 90%	
• Developed a web-based Student Management System to manage student records efficiently. • Implemented CRUD operations (Create, Read, Update, Delete) for student data using Flask and SQLite • Designed responsive frontend interfaces using HTML and CSS for adding and viewing student details • Built backend logic using Flask routes to handle form submissions and database operations • Integrated SQLite database to store student information such as name, age, and course. • Used Jinja2 templates to dynamically display student data on web pages	
AI Study Assistant (Chatbot)	Python,Gemini API,Flask,API Integration(Sarvam.ai)
Technologies: Python, Flask, HTML, CSS, API Integration (Sarvam.ai / LLM)	
• Developed an AI-powered Study Assistant web application that helps students ask academic questions and receive intelligent responses • Integrated AI APIs to process user queries and generate answers in natural language. • Built the backend using Flask to handle user requests and connect the frontend with AI services. • Designed a simple web interface using HTML and CSS for students to interact with the chatbot.	

Certifications

Certified in IOT issued - **APGC**
Python 101 for Data Science-**IBM**
SQL and Relational Database 101-**IBM**
